

# SOHAIB KHAN

Flutter Developer — Firebase & Backend Integration — Python & Machine Learning Enthusiast

📍 Riyadh, KSA (Transferable Iqama) 📞 +966 53 803 8296 ✉️ sohaib.akhund209@gmail.com 🌐 LinkedIn 🐙 GitHub

## Professional Summary

Flutter Developer with 3+ years of experience building scalable mobile applications for Android and iOS. Expertise in Flutter, Dart, Firebase, REST APIs, and secure authentication. Proven track record developing production-ready apps with localization (English/Arabic, RTL), real-time data handling, and performance optimization. Computer Science graduate with additional experience in academic operations. Currently based in Saudi Arabia (Transferable Iqama).

## Professional Experience

### Flutter Developer

August 2025 – Present

Cloud Business Company

Dammam, KSA

- Develop and maintain mobile applications using Flutter for internal technology and business projects.
- Build in-house digital products, transforming concepts into scalable, production-ready applications.
- Collaborate with teams to align app functionality, UI/UX, and business requirements with clean code practices.

### Academic Executive

November 2024 – August 2025

CECOS College London

London, UK

- Managed academic operations including assignment checking, module reports, and documentation.
- Coordinated with London-based faculty to ensure smooth academic delivery and alignment.
- Utilized Moodle for course management and created trackers for performance monitoring.

### Flutter Developer

December 2022 – April 2025

Hoop Interactive

Peshawar, Pakistan

- Built and maintained mobile applications using Flutter & Dart for Android and iOS platforms.
- Integrated REST APIs, Firebase services (Auth, Database, Cloud Functions) for real-time data handling.
- Managed version control with Git/GitHub and participated in testing, deployment, and support.

## Key Projects

### BeesApp – Multi-Platform Business & Rewards System | Flutter, Backend APIs

- Developed multi-platform solution with Flutter apps (Android & iOS), web dashboards, and backend APIs.
- Implemented secure authentication, bilingual localization (English/Arabic with RTL), token refresh, and real-time API integrations.
- Built key features: user onboarding, profile management, rewards, campaigns, and location services.
- Collaborated with backend and web teams to integrate Admin, Client, and Sales dashboards.

### Knee Osteoarthritis KL Classification System | Machine Learning (CNN)

Apr 2024 – Jul 2024

- Created Flutter app with CNN model to classify knee osteoarthritis from X-ray images with 93% accuracy.
- Integrated Google Authentication and Firebase for secure user management and real-time storage.
- Deployed model via cloud API, enabling real-time predictions with under 3 seconds latency.

## Education

### Bachelor of Studies in Computer Science

September 2020 – July 2024

University of Engineering & Technology, Peshawar

Peshawar, Pakistan

## Technical Skills

**Mobile Development:** Flutter, Dart, Android, iOS, Cross-platform Development

**Backend & Integration:** Firebase (Auth, Database, Cloud Functions), REST APIs, Token Management

**Programming Languages:** Python, Java, C++, Dart

**Databases & Tools:** MySQL, Firebase, Git, GitHub, Moodle, Authentication Systems

**Additional Skills:** Localization (RTL), Machine Learning (CNN), Cloud APIs, Testing, Optimization

## Leadership & Extracurricular

### Treasurer

September 2023 – July 2024

UET Sports Society

Peshawar, Pakistan

- Led sponsorship coordination with corporate partners and Sports Minister of KPK, securing essential funding.
- Managed financial records and sponsorship deals with transparency and accountability.
- Successfully executed USS EXPO 24, attracting 2,000+ participants from institutions across Pakistan.

## Additional Information

**Languages:** English (Fluent), Urdu (Native), Pashto (Native)

**Interests:** Cricket, Technology Trends, Travel

**Soft Skills:** Leadership, Communication, Problem-Solving, Critical Thinking, Fast Learner, Adaptability
